SUPPLEMENTAL INFORMATION

These records are new histories that I recieved after I had finished my History in 1987, they also include up dates on families, mistakes, what other historians have to say on some members of this large family on where they believe they go.

After the histories, there will be a "Who is this" column, there will also be an index in the back so you can go right to the newest members of your line. I just wish all had sent in at least one picture to go with your individual clan.

I want to thank all of you for your comments and help.
