

Pocatello Ida.

May 15, 1930.

Dear William:-

Received your letter and it sounds as though you are certainly keeps busy in your new field of labor. I imagine it is nice to have a change in your territory, although, one hates to part with old friends. Yes, the Cox boy is home, Jared said he spoke in the fifth ward last Sunday night. I haven't been to church the last month as I have not felt very well as we are expecting a new arrival at our house within the next two weeks. Mother

came to see us and stayed
a couple of nights, I guess
you have heard by now of Joe
being put in as Bishop. It
ought to put new life in the
Groveland ward to have a
change. Bro. Boker has been
in sixteen years, any one
gets stale after being in that
long. Joe will make a fine Bishop
but it will mean a lot of
extra work. Last night we went
to the recreation hall to see
the mutual contests in the
dramas and the dancing. The
sixth ward won in the play,
and they were certainly good.
Second ward won the dance

Pocatello, Ida.

Jan 31, 1928.

Dear William:-

We received your letter from Salt Lake City. And I guess you are getting ready to go on your journey while I am writing this. I am wondering which will reach great Britain first you ~~or~~ ~~this letter. Enclosed you will~~ find ten dollars which we hope will buy you a few meals. You must have had a real fare-well party and did well to get so much money. I received a letter from Bertha saying

18
you had your party just in
time, as the next day it
snowed and blocked the roads.
We certainly have a good
share of snow here. There is
a bank of snow around our
house about four feet high.
Jared has had to shovel a
path for his car.

James called Sunday and
said he and Effie are going
to the Logan Temple on
the excursion starting Feb 5,
and wanted to get some
names, but I did not have
any as you finished the last.
I had a few sealing to do
so will have him finish

Calvin was in the fifth ward play, taking the part of an old man, and did real well.

We are having a rainy spell. In fact we have had a great deal of rain the last month.

So many people have been predicting a hot dry summer, but it doesn't seem to be very dry. You talk as though you don't see a great deal of the sun, I don't believe I would enjoy living in a rainy country.

We are all well and hope you are the same. Enclosed is the ten spot.

Love from all
Sylvia
